

018691K PILOT BURNER REPLACEMENT

SERVICE WORK ONLY TO BE CARRIED OUT BY QUALIFIED PERSONS

Suitable for the following models:

Blue Seal Ovens:	G50 / G54 / G56 / G58 - From serial number MA119887 and G50-4 / G52-4 / G570
Waldorf Ovens:	RN8000 series - From serial number A27040
Blue Seal Target Tops:	G570 / GE570 - To S/N 226262
Waldorf Target Tops:	RN8110G / RN8110GE - To S/N 226262
Blue Seal Salamanders (UK)	G91
Blue Seal Griddle Toasters	G55T / G55T-SR

Contents:

- 1 Pilot burner (includes pilot electrode, p/n 018744)
- 1 Natural gas injector 0.35mm (p/n 026488)
- 1 LPG / Propane injector 0.23mm (p/n 019217)

**CAUTION: ENSURE UNIT IS ISOLATED FROM GAS/ELECTRICAL SUPPLIES BEFORE SERVICING
CHECK UNIT FOR GAS LEAKS AT COMPLETION OF SERVICING**

Replacement instructions (ovens):

- 1) Remove all racks and trays from inside the oven to allow access to the oven burner.
- 2) Disconnect the pilot supply tube, thermocouple and H.T. lead from the oven pilot assembly.
- 3) If the pilot assembly is secured to a mounting bracket then remove the pilot burner bracket (two screws) then remove the pilot burner from the oven.
If the pilot assembly is secured directly to the base of the oven then remove the two screws securing the pilot burner (from under the oven).
- 4) Ensure that the correct size injector is fitted to the new pilot assembly, and reassemble.

All markets except UK pilot injectors:

	Natural Gas	LPG
G50 / G50-8	0.35mm	0.23mm
G54 / G56 / G58	0.35mm	0.23mm
G570	0.35mm	0.23mm
G50-4 / G52-4	0.35mm	0.23mm
RN8610G / RN8810G	0.35mm	0.23mm
RN8410/8610/8810GC	0.35mm	0.23mm
RN8110G	0.35mm	0.23mm
RN8410G/RN8820G	0.35mm	0.23mm

UK pilot injectors only:

	Natural Gas (G20)	Propane (G31)
G50 / G50-8	0.35mm	0.23mm
G56 / G58	0.35mm	0.23mm
G570	0.35mm	0.23mm
G50-4 / G52-4	0.35mm	0.23mm

Replacement instructions (target tops):

- 1) Remove all cast iron plate sections from target top.
- 2) Remove the pilot supply tube, H.T. lead, and thermocouple from the pilot burner assembly.
- 3) Undo the two screws securing the pilot burner to the bracket.
- 4) Remove the pilot burner, replace, and reassemble in reverse order.
- 5) Ensure that the correct size injector is fitted to the new pilot assembly, and reassemble.

Natural gas (UK - G20) 0.35mm
LPG / Propane (UK - G31) 0.23mm

Replacement instructions (UK salamanders):

- 1) Remove the side panel.
- 2) Undo the pilot supply tube and the thermocouple from the pilot burner.
- 3) Remove the 2 screws securing the pilot bracket (inside salamander) and withdraw the pilot burner and bracket.
- 4) Remove 2 screws securing the pilot burner to bracket.
- 5) Ensure that the correct size injector is fitted to the new pilot assembly, and reassemble.

Natural gas (G20) 0.35mm
Propane (G31) 0.23mm

Replacement instructions (griddle toasters):

- 1) Remove control panel.
- 2) Disconnect the pilot supply tube and thermocouple from gas control with a 10mm spanner.
- 3) Remove 2 screws fixing pilot bracket to burner box, and remove the pilot assembly from the burner box.
- 5) Disconnect the pilot supply tube and thermocouple from the pilot burner and remove.
- 6) Ensure that the correct size injector is fitted to the new pilot assembly, and reassemble.

Natural gas 0.35mm
LPG 0.23mm
